Very short history of IEDs en español

► Did you know?

Sticky IEDs are improvised explosive devices that are glued to vehicles. These IEDs may be detonated by remote control or with timers.

THE EXPLOSIVES ACADEMY™ is now pleased to offer Internet and DVD classes that cover safety, awareness-level training, and understanding of Improvised Explosive Devices and Explosively Formed Penetrators. These must-have classes are useful for anyone in the security, military, government, transportation, health, education, and journalism sectors.

Certification is now available.

Enroll now in our exclusive awareness training classes:

- Improvised Explosive Device certification classes
- Explosively Formed Penetrator certification classes

ONLINE and on DVD. Learn wherever you are.
